

2009 PAVO Libero Tracking Reminders

(Note: Detailed instructions may be found on page 121 of the NCAA Rulebook)

1. **Once the libero is replaced, at least one rally must be completed before the libero can replace another player.** (Exception: the libero may go from a position on the court directly to the serving position in one rotation. Write the number of the player replacing the libero by the existing "L" and the new "L" beside the player who would have served. Put a triangle around the serving order Roman numeral.)
2. **When the libero leaves the court, the player replacing the libero must be the same player that the libero replaced when she last entered the court.** (Write an "L" by the number of the replaced player – the same number must be after the "L". Don't slash these. Only slash the regular substitution numbers and team substitutions at the bottom – these should match.)
3. **The libero can only replace a back-row player.** To easily determine back row players, put one tally mark in the service column for each player's term of service. Only the last player with the most tally marks, plus the two previous players can be replaced by the libero.

4. **Deciding Set:** On the far right, only record the libero service triangle, the tallies for service, and team substitutions. When teams switch sides, write the last entry of the team on the left under "SP" on the far right under "CP". If the libero is on the court, write the player she replaced, then "L" to the right of that.

Hints:

- Remember to circle the "S" of the team serving first.
- Watch both sides, as liberos often replace from both teams on the same dead ball.
- Try to SEE each replacement rather than try to figure out what might have happened!
- They must replace across the sideline between the attack line and the end line.
- At the end of a time out, make sure the correct players return to the court.
- Notify the R2 immediately of an illegal libero replacement.
- Communicate and coordinate with the scorekeeper often to ensure accuracy.
